MICROJET SUPPORT EQUIPMENT

RAPID FIBER DEPLOYMENT TRUCK

RFDT WITH CAROUSEL ATTACHMENT

The Sherman & Reilly RFDT is a 26,000 GVWR (minimum) chassis with a mounted HP 375 CFM at 150 psi air compressor and a self-loading reel handling boom that can payout, take up, and brake reels up to 96" OD x 54" wide and weighing up to 12,000 lbs. The Carousel MDC-4 multi-reel attachment allows for multiple reels of micro ducts to be installed with the **SUPERJET/RFDT** Unit.

CASCADE TRUCK

The Sherman & Reilly **CABLEJET** Cascade Truck is a vehicle with a dedicated design for installing cables with **CABLEJET**, **SUPERJET**, **MICROJET**, or **MINIJET** at intermediate locations. The Cascade Truck features a 15,000 lb. GVWR cab and chassis with an 84" CA service body equipped with: HP 375 CFM compressor • PTO and twin pumps • hydraulic tool circuit • retractable hose reels • curb side control panel • rear work light and emergency flashers • manhole vent fan and 25ft. hose • hydraulic water pump • 8,000 lb. winch • pintle hook and electronic engine rpm control.

Cablejet is covered by USA Patents 4,850,569, 4,934,662, 5,197,715, and 7,222,197 B2.
