

## **Model SRLB-18AS Aluminum Light Bar**

### **GENERAL SPECIFICATIONS:**

Sherman & Reilly's Model SRLB-18AS and SRLB-48AS light bars were designed to extend the taillights to the end of a pole on a digger truck, or pole trailer. Incorporates two stop, turn, tail lights, rear facing outside marker lights and two side facing red marker lights. The unit also has an amber flasher light mounted on top. Made of 4" steel square tube with a powdercoat painted finish. The unit has a mounting bracket that attaches the lightbar to the pole by means of a 2" nylon ratchet strap. Lightbar includes, 30' pigtail, and light plugs. The Light bars are available in the 18 inch model and the 48 inch model.
