## TURRET TRAILER

### TRT-372/60FB Turret Trailer with Flat Bed

#### **General:**

The Sherman & Reilly Model TRT-372/60-FB Turret Trailer is a triple turret version capable of handling three reels up to 72" in diameter by 60" wide and weighing up to 6,500 lbs. each. The 2-5/8" diameter reel shafts are easily removed with the quick release sealed bearing pillow blocks. Shaft and drive bars can be coupled to 16" diameter ventilated aluminum-bronze caliper/disc tension brakes. The smooth rotating turrets can be locked in any direction in 15 degree intervals. They can also be removed with four bolts leaving a flat deck for hauling transformers, crossarms, or other material. At each corner is an adjustable telescoping jack for stability in tough pulls. This trailer also features a flat bed and loading ramps so small equipment may be loaded on the bed when the turrets are removed. The loading ramps are stored underneath the trailer at the rear. All walking surfaces are made of steel safety plate and coated with an anti-slip paint. Standard equipment includes DOT lighting, adjustable front pintle eye, safety chains and hooks, grounding lugs, and 12-1/4 x 5 heavy duty electric road brakes. Optional equipment includes bed rollers, gathering window, and hydraulic rewinds and power pack.

## **TRT-372/60FB Turret Trailer with Flat Bed**
